

E-FLYER & MOTION AD

checklist

IT'S MARKETING TIME! DID YOU KNOW THAT FLYERS ARE A GREAT WAY TO ADVERTISE TO YOUR AUDIENCE?

WELL, LET'S GET STARTED.

1. Text (this can include but is not limited too)
 - contact information (emails, phone numbers)
 - social media information (ie follow us on Instagram @exquisitevisuals, like us on facebook eXquisite Visuals)
 - hashtags (#eXquisiteVisuals)
2. Photos (high quality only please)
3. Your logo in .PNG format□
4. Color Scheme if they aren't present and clear in your logo. When sending your color scheme please provide hex codes or RGB/CMYK codes. If you do not have access to these that is perfectly fine, please take note that colors will be eye dropped directly from the logo presented.□
5. Any additional text you may want your flyer ie; price lists ... (flyers can be used for literally ANYTHING)

Do you have an example or an idea for how you want your flyer to be designed? Not a problem please be sure to send attachments if they are screenshots or explain what you would like done. Dinahste's Design Studio does not copy/plagiarize any other work of ours or any other designer, I would like to place a huge EMPHASIS on this; inspiration will be taken for provided examples if there are any, your design WILL NOT look like what is provided the aesthetic, however, will be applied.

When sending your e-flyer information, please make sure the subject of the e-mail is E-FLYER/MOTION AD DESIGN. If you have purchased more than one e-flyer please send all flyer information separately. For example; Sarah purchased 3 e-flyers in her word document the content of each flyer is sectioned off. If Sarah decides to send flyer content via e-mail each flyer should have its OWN e-mail.
